Moonn Electronics

Use me to build a clone of the MidFi Electronics Random Number Generator

Hi there!

Thank you for building me!

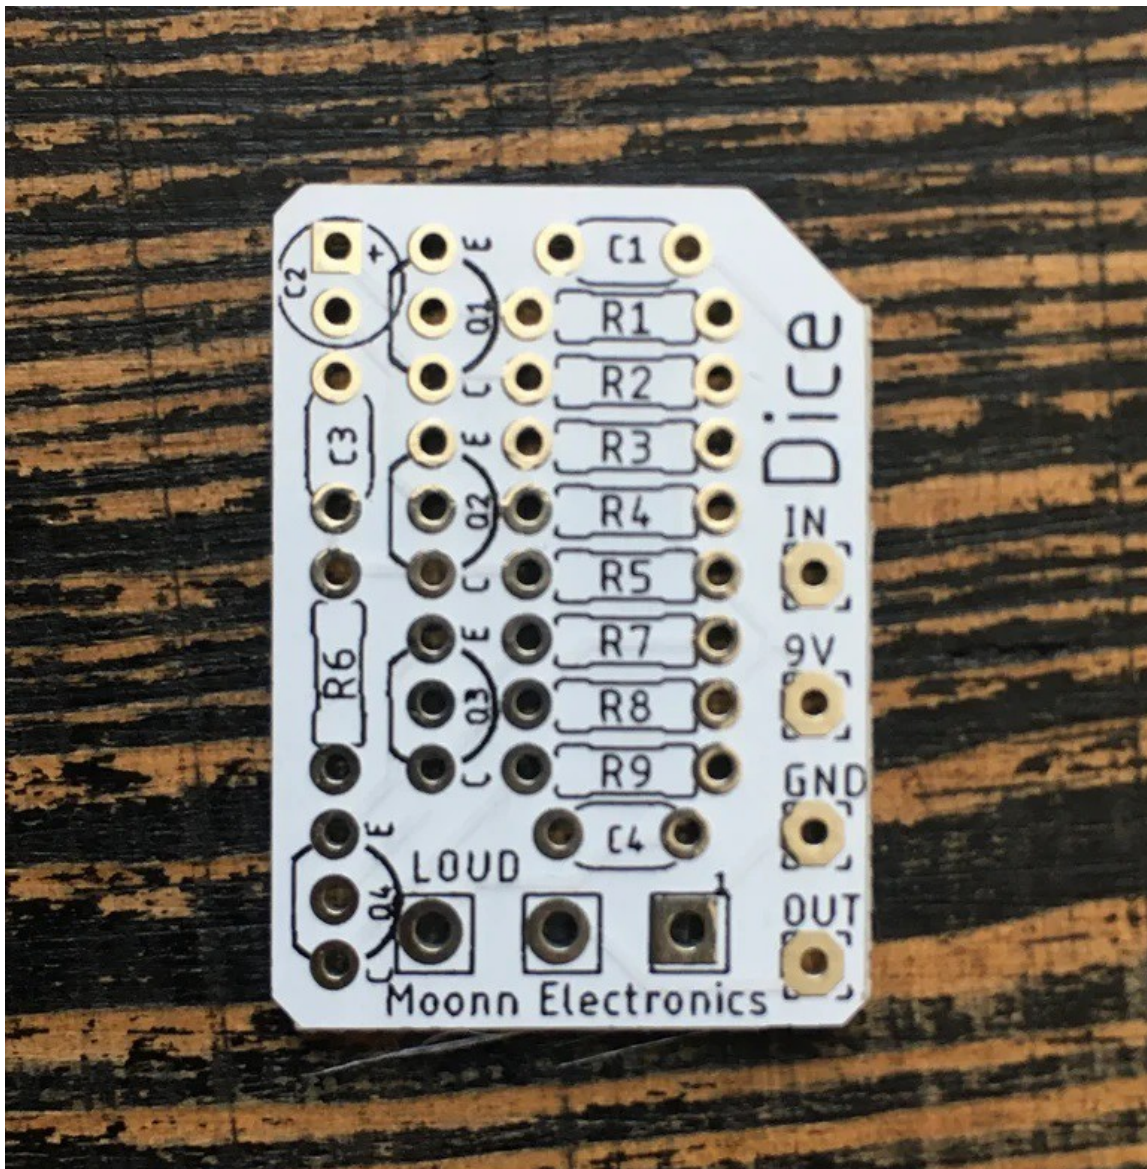

As I will be weird and noisy anyway you can use whatever combination of transistors you want but can't say if it is going to sound like it should do.

But yea...

Do whatever...

If you have any questions or anything else to say, just write an email to moonnelectronics@gmail.com

Have a nice day!
